## IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of: White

Serial No.: 10/629,285

Group No.: 1734

Filed: July 29, 2003

Examiner: James Scells

For: ENGINEERED THERMAL MANAGEMENT DEVICES AND METHODS OF THE SAME

RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents  
PO Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

In response to the Restriction Requirement mailed June 28, 2005, Applicant hereby elects Group I, reading on claims 1-11 and 23-27, with traverse.

The Examiner contends that "in the instant case the product as claimed can be made by another and materially different process such as mechanical consolidation." However, applicant questions how this is possible when claims 12-22 are all dependent claims ultimately depending from claim 1 which specifies "a solid-state consolidation process." Clarification is respectfully requested.

Respectfully submitted,

By:
